##### **Original Abstracts:**

The present invention features a method for providing status information to a client **based on data** residing in an **electronic database or e - file** . The database **of the information** is maintained and **updated** , and is periodically **analyzed** to determine whether at least a portion of the data has changed since the last analysis or communication. If so, the client is automatically informed...

...opportunity to respond to the system AVR call and/or correct or provide additional information, the client voice response being stored in an appropriate voice **mailbox** .

...

...The present invention features a method for providing status information to a client based on **data** residing in an **electronic database or e - file** . **The** database of the **information** is maintained **and updated** , and is periodically analyzed **to** determine whether at **least** a portion of the **data** has changed since the last analysis or communication. If so, the client is automatically informed by the system, which initiates an

automatic voice response (AVR...

...opportunity to respond to the system AVR call and/or correct or provide additional information, the client voice response being stored in an appropriate voice **mailbox**.

**Claims:**

...What is claimed is: 1. An apparatus for automatically advising a client of a tax preparation service of a change in status of a **tax return** associated with that client, comprising: a) a company database comprising a plurality of client records, each of said client records containing predetermined information associated **with a** client, said company database being selectively by at least one of the agencies: Internal Revenue Service (IRS), a state taxing authority; b) a database of...

...status having a plurality of client records, at least one client record being associated with said clients and including at least a status of a **tax return** thereof; c) means for analyzing, operative upon said database of previous status, for determining when information in one of said plurality of client records therein has changed, and **for generating** a change record when information in said client record has changed; d) a change records database operatively connected to said means for analyzing for receiving...

**I.R.S. Tries On-Line Tax Filing**

The New York Times, p15

Feb 19, 1994

Language: English Record Type: Abstract

Document Type: Newspaper; General

**ABSTRACT:**

...will reduce the amount of paper that it must handle. In another test in 1994, over 300,000 single taxpayers in 7 states have filed **Form 1040**

**EZ** by entering the data on the keypads of touch-tone telephones.

**Electronic filing** can enable taxpayers to receive their refunds sooner than if they had filed their returns by mail. **Electronic filing** can also improve accuracy, since data on paper forms must be entered into IRS computers by human typists and transcription errors are possible. Taxpayers who use **electronic filing** will receive a confirmation via electronic mail that their returns have been received, or a request for more **information** if necessary. The **new electronic filing** systems do not completely obviate the need for paperwork, because taxpayers must provide their signatures on a separate form and provide paper copies of W...

...Compuserve Information Service will be used to transmit the electronic returns. The IRS and Compuserve said that data eavesdropping is not a threat to the **electronic filing** systems, but computer security experts warned that some concerns about data security and privacy have not been addressed.

... incorporating workflow into their offerings.

As far as the issue of interconnecting, Glasgow said that a workflow

message is lost when it passes among disparate **E - mail** packages working with third-party workflow packages.

'You can send a (workflow) message from Microsoft Mail to Microsoft Mail, but you can't send it...

...said Glasgow. 'We need standards that will allow transparent sending of workflow documents.'

This describes workflow as an intelligent technology that allows workgroups to share **information** in an '**electronic file** cabinet,' where users can make **additions**, **changes** and comments to the **information** and store electronic copies. But despite the lack of workflow interface standards, vendors such as Reach said they have made major strides in interoperability due...

...as well as Notes, due to support for the VIM and MAPI messaging standards.

'We support MHS and VINES, so we support all the major **E - mail** transport,' said Kim Peyser, Reach's chief operating officer.

**Accounting firm Internet sites that work (and those that do not).**

Louwers, Timothy J.; Pasewark, William R.; Typpo, Eric W.

CPA Journal, 69, 3, 69(3)

March, 1999

ISSN: 0732-8435      LANGUAGE: English      RECORD TYPE: Fulltext; Abstract

WORD COUNT: 1894      LINE COUNT: 00155

... include a description of the firm that details its history and personnel. In addition, almost every site provided a means of contacting firm members by **e - mail** . Surprisingly, one-quarter of the firms do not provide detailed descriptions of the services they offer or the location of their offices.

Several firms take...

...from their firm's site. These resources include sites such as the AICPA, IRS, and SEC. Blackburn, Childers & Steagall, PLC (www.bcscca.com) provides downloadable **tax forms** that can be printed and filed with the IRS.

Since the official IRS Internet site is often overwhelmed with users (particularly near tax deadlines), providing an alternative source for **tax forms** is a good way to entice people to visit your site.

Many of the more innovative firms provide the Internet user with detailed **profiles** of firm members, listing their background, credentials, and area of expertise. Some firms invited prospective clients to ask these firm members questions and provided their individual **e - mail** addresses.

Approximately one-quarter of the firms utilized their Internet site for staff recruiting. Listing firm openings on an Internet site can be a cost...

... are filed electronically, the report noted.

Practitioners and accounting firms told IRS that online filing offered few benefits for them and their clients. To boost **electronic filing**, these focus groups suggested that IRS accept all returns and related schedules and information online, offer **electronic mail** for account resolution, offer electronic powers-of-attorney and provide expanded electronic payment options.

IRS also is creating a new group that will be devoted entirely to managing online filing projects. A first step will be to develop an authentication framework. Now, IRS requires that taxpayers follow up an **electronic filing** with an information form that has a signature.

But do not expect major systems upgrades for online filing soon, the report warned. The agency plans to introduce changes only "in sufficiently small increments," so it can adapt to changes in public **preferences** and technology, the report said.

Byline: Business Editors/Internet Writers

...a private company that maintains the only list of  
legal addresses for every registered voter in the United States. The  
company has established a "legal **Emailbox** " for American citizens,  
from which mail of a governmental or commercial nature may be  
retrieved.

Consumers who pick up their mail at their Aristotle Legal  
**Emailbox** are compensated a portion of the savings, generally 25 cents  
to one dollar, saved by the government or commercial mailer. Mailers  
calculate that they would...

...large mailers in the future. California  
Secretary of State Bill Jones was the first high-profile client who  
began to test the service last fall.

" **E - mail** is more cost-effective, convenient and efficient than  
traditional printing and mailing," said Jones. "When one adds up  
the printing and postage costs for two...

...Tax Board forms and instruction  
books, DMV license and registration renewal forms, plus all the other  
various statewide mailings, the price tag can be staggering. **E - mail**  
delivery of these documents could save taxpayers a fortune."

The average consumer gets more than 1,000 pieces of unsolicited  
junk mail each year and many unwanted telephone solicitations.  
"Aristotle helps consumers put a stop to the unwanted mail, **e - mail**  
and telephone calls," said John Phillips, president of Aristotle.  
"The only requirement is that you must be a registered voter to  
qualify."

"It's an...

**Accounting firm Internet sites that work (and those that do not).**

Louwers, Timothy J.; Pasewark, William R.; Typpo, Eric W.

The CPA Journal, 69, 3, 69(3)

March, 1999

ISSN: 0732-8435 LANGUAGE: English RECORD TYPE: Fulltext; Abstract

WORD COUNT: 1894 LINE COUNT: 00155

... include a description of the firm that details its history and personnel. In addition, almost every site provided a means of contacting firm members by **e - mail**. Surprisingly, one-quarter of the firms do not provide detailed descriptions of the services they offer or the location of their offices.

Several firms take...

...from their firm's site. These resources include sites such as the AICPA, IRS, and SEC. Blackburn, Childers & Steagall, PLC ([www.bcscca.com](http://www.bcscca.com)) provides downloadable **tax forms** that can be printed and filed with the IRS. Since the official IRS Internet site is often overwhelmed with users (particularly near tax deadlines), providing an alternative source for **tax forms** is a good way to entice people to visit your site.

Many of the more innovative firms provide the Internet user with detailed **profiles** of firm members, listing their background, credentials,

and area of expertise. Some firms invited prospective clients to ask these firm members questions and provided their individual **e - mail** addresses.

Approximately one-quarter of the firms utilized their Internet site for staff recruiting. Listing firm openings on an Internet site can be a cost...

**LUCA.COM: the gateway to the 21st century. (professional information solution for CPAs) (includes appendix) (Cover Story)**

Valenti, Stephen P.

The CPA Journal, v67, n5, p14(5)

May, 1997

DOCUMENT TYPE: Cover Story ISSN: 0732-8435 LANGUAGE: English

RECORD TYPE: Fulltext; Abstract

WORD COUNT: 2688 LINE COUNT: 00221

...ABSTRACT: colleagues. The second generation form of the system offers easier access to information and gathers all accounting resources in one place. LUCA.COM offers improved **e - mail** capability, system-wide search engines, downloadable **tax forms** and use of the site as the address of **preference** for the user's **e - mail**. The new service also provides access to copies of the CPA Journal since 1989, to the LUCA professional library and to professional forums.

... past 24 hours, 365 days, or more; post messages and questions; and get answers from CPAs that are dealing with the same professional issues.

Downloadable **Tax Forms - Tax forms** are the hands-down winner in the most requested service category. LUCA.COM's **tax form** database contains a comprehensive compendium of state, city, and Federal **tax forms**.

One **E - Mail** Address for the Business Card. Users of LUCA.COM can use the LUCA.COM site as the address of **preference** for their **e - mail**. It doesn't matter who their Internet provider is (if they have one) or what other online service they may from time to time select...

...distinctive, JDOE@luca.com.

Your LUCA address can readily move with you anywhere in the world and can save you the hassle of changing your **e - mail** address if you change Internet providers.

In addition to CPA Journal subscribers, LUCA. COM offers the ability for other organizations to use the features discussed...

**Hypertext file publishing method for web server-based project, packages HTML file and file path names in e - mail message at client, transports e - mail to web server, recovers HTML file and deposits HTML file content in server directories**

**Alerting Abstract** ...NOVELTY - A HTML file is edited and packaged on a client terminal e.g. portable computer, as an **e - mail** message containing HTML content and hypertext file path names. The **e - mail** is transported to a web server where the server recovers the HTML file and path names from the **e - mail**, and deposits the HTML file content in the appropriate server directories in accordance with the path names. DESCRIPTION - The client adds a mail header to the **e - mail** message which contains mail control switches to identify the **e - mail** as a hypertext file set, and the **e - mail** message is configured as a multi-purpose **Internet mail** extensions ( MIME) message...

...not require to have knowledge of specialized programming languages or protocols. Processing time and Internet bandwidth are conserved by transmitting the files in a single **e - mail**, and the method uses standard Internet protocols and generic server software...

#### Original Publication Data by Authority

##### Argentina

Assignee name & address:

##### Original Abstracts:

A method is disclosed for publishing a hypertext file set on a world-wide web server machine by packaging the hypertext file set as an **e - mail** message on a **client** machine, transporting the **e - mail** message over the **internet** from the client machine to the world-wide web server machine, unpacking the **e - mail** message to **recover** the hypertext file set, and depositing the hypertext file set into a memory means on the world-wide web server machine. By using the **e - mail** transport mechanism,

a **direct** internet connection between the client and server is not necessary. Consequently, the method allows files to pass through **security** firewalls and allows geographically disperse individuals to remotely **update information** at a WWW site without compromising server security. In addition, processing time is not wasted during direct connections sharing the server's resources and internet...

**Claims:**

...method for publishing a hypertext file set on a world-wide web server machine, the method comprising: packaging the hypertext file set as a composite **e - mail** message on a **client** machine, transporting the composite **e - mail** message over the internet **from the** client machine to the world-wide web server machine, unpacking the composite **e - mail** message to recover the hypertext file **set** , and depositing the hypertext file set into a memory means on the world-wide web server machine.

**File forwarding method involves attaching copy of file to e - mail note and inserting link indicating shared disk location in body of the text, when preference for sending shared files are determined**

**Alerting Abstract ...NOVELTY** - An **e - mail** program is launched, when the **preference** for sending shared files indicating that the shared files are forwarded as attachment during output of file forwarding request. An **e - mail** note is created, to which copy of the file is attached and a link indicating shared disk location is inserted in the body of the **e - mail**

text and output to the recipient....USE - For forwarding file comprising word processing documents, spreadsheet documents, multimedia presentations, images, sound from sender to receiver using **electronic mail (e-mail)**).

...

...ADVANTAGE - Allows a sender to send a file through **e-mail** in the form of **link to** a shared disk location of the file, as an attachment or as a both a link and attachment

#### **Original Publication Data by Authority**

##### **Argentina**

Assignee name & address:

##### **Original Abstracts:**

...a disk location or if the file has not been saved to a shared disk location, the file is sent as an attachment to an **e-mail** note. If **the file** has been saved to a shared disk location, the file is sent to the recipient as a link in an **e-mail** note. In **order to** determine if the file saved to the shared disk location should also be sent as an attachment, a registry is checked for a send **preference** regarding shared files. If a send **preference** indicates that shared **files** are to be sent as attachments, the file is sent as both a link and an attachment. If a send **preference** indicates that shared **files** are not to be sent as attachment, the file is sent only as a link. If the sender has not previously indicated a send **preference**, the sender may **be** prompted to input a signal indicating whether the file is to be sent as an attachment. A send **preference** may be created **in** response to the signal, if the sender so desires.

##### **Claims:**

...the file has been saved to the shared disk location, checking a registry in order to determine that the sender has previously indicated a send **preference** for sending shared files; and in response to a determination that the **send preference** indicates that shared files are to be sent as attachments: launching an **e-mail application** program, instructing the **e-mail** application program to create an **e-mail** note, attaching a **copy** of the file to the **e-mail** note, inserting a link to the **shared disk** location in a body of the **e-mail** note, and instructing the **e-mail** application program to send the **e-mail** note to the recipient.
